## Roth QuickTemp Compact® Primer

## Display safety data sheet

Hazard statements

Not applicable.

## General

Article no.

S798

Use of the substance / mixture

None known.

Restricted to professional users.

## First aid procedures

General

In the case of accident: Contact a doctor or casualty department – take the label or this safety data sheet. Contact a doctor if in doubt about the injured person's condition or if the symptoms persist. Never give an unconscious person water or other drink.

Inhalation

Upon breathing difficulties or irritation of the respiratory tract: Bring the person into fresh air and stay with him/her.

Skin contact

Upon irritation: rinse with water. In the event of continued irritation, seek medical assistance.

Eye contact

If in eyes: Flush eyes with plenty of water or salt water (20-30 °C) and continue until irritation stops. Remove contact lenses.

Ingestion

If the person is conscious, rinse the mouth with water and stay with the person. Never give the person anything to drink.

In case of malaise, seek medical advice immediately and bring the safety data sheet or label from the product. Do not induce vomiting, unless recommended by the doctor. Have the person lean forward with head down to avoid inhalation of or choking on vomited material.

General symptoms and effects

None known.

Information for health personnel

Bring this safety data sheet or the label from this product.

Other information

Not applicable. Treat symptomatically.

## Fire fighting measures

Suitable extinguishing media

Suitable extinguishing media: Alcohol-resistant foam, carbon dioxide, powder, water mist.  
 Unsuitable extinguishing media: Waterjets should not be used, since they can spread the fire.

Fire and explosion hazards

Fire will result in dense smoke. Exposure to combustion products may harm your health. Closed containers, which are exposed to fire, should be cooled with water. Do not allow fire-extinguishing water to enter the sewage system and nearby surface waters.

Fire fighting procedures

Fire fighters should wear appropriate personal protective equipment.

## Preventive Measures to contain emissions

Personal protection measures

Ensure adequate ventilation, especially in confined areas. Contaminated areas may be slippery.

Environmental precautionary measures

Avoid discharge to lakes, streams, sewers, etc. Keep unauthorized persons away from the spill

Cleaning method

Collect spills carefully. Moist the material with water in order to prevent the formation and propagation of dust. Wherever possible cleaning should be performed with normal cleaning agents. Avoid use of solvents.
