Tools of the manufacturer RIDGID, of ARX / NUSSBAUM and KLAUKE which have been produced later than 2001 are compatible with the ROTH RIS-System.

The tool from ARX Picco is an exception as it isn't compatible with the ROTH system.

The ROTH system warranty of 10 years is only valid when using only components of the ROTH WERKE system and in connection with the ROTH attachment system. That means only when using the ROTH press tools and press jaws and press loops of the ROTH range.
