

**Roth Cement Screed Additive Plus (product no: 1135000253)**

Highly effective dispersion of synthetic material for the production of plastic-modified, thin-layered heating screeds.

Dosage: 5% Roth cement screed additive plus in relation to the cement weight of the mixture.

Pipe Diameter (d <sub>pipe</sub> )	Minimum Screed Thickness (d <sub>pipe</sub> + 30mm)	Required Amount for <b>ZE 30</b> Screed quality	Required amount for <b>ZE 40</b> screed quality
14mm	44mm	0.825 l/m <sup>2</sup>	0.990 l/m <sup>2</sup>
17mm	47mm	0.881 l/m <sup>2</sup>	1.058 l/m <sup>2</sup>

Basis of calculation:

Cement content of 375kg added per m<sup>2</sup> screed mixture for **ZE 30 screed quality**

Basis of calculation:

Cement content of 450kg added per m<sup>3</sup> screed mixture for **ZE 40 screed quality**
