

Roth Touchline® SL WiFi module

Wireless connection between Roth Touchline® SL Controller 8 ch, Master and internet

Description

Roth Touchline® SL WiFi module is used for wireless connection between Roth Touchline® SL Controller 8 ch, Master and internet so it is possible to regulate its heat management via the Roth Touchline® SL app.

Via the app, it is possible to make all the same settings as if you were at home in your house, at the same time as you will receive alarms from the heating control directly to your app.

The system consists of a control unit which is wirelessly connected to the local router and via RS cable is connected to the Master controller.

The module is paired and set up using the display on the Master controller which at the same time provides a good overview of the connection to the router.

WiFi module

- > The module can be mounted directly on the wall
- > Up to 30 m indoor range

Technical data

Roth Touchline® SL WiFi module	HVAC no. 7466397002
Energy consumption	0.5 W
Connector	RS cable
Protection class I	(NA)
Transmission frequency	2,4 Ghz
Range (up to)	30 m (in normal building)
Network cable RJ12	200 cm
Ambient temperature	5 - 50°C
Ambient humidity	< 80% RF
Storage/transport temperature	-20 - + 50°C
Degree of protection	IP20 (EN60529)
Approvals	CE 2014/53/EU
